## Skills

JavaScript | Node.JS | MongoDB| React & Redux |C | Php | Express.js

## Work Experience

| | |
|---|---|
| **INNOBIMB INFOTECH PRIVATE LIMITED | Intern** | **Oct'22- Nov'22** |

During this internship, I enhanced my proficiency in PHP and MySQL, honed my problem-solving and analytical skills, and gained practical experience in full-stack web development. I also developed effective communication and teamwork abilities by collaborating with colleagues on various projects.

- Enhanced proficiency in PHP and MySQL during the internship.
- Gained practical experience in full-stack web development.
- Demonstrated teamwork abilities by actively participating in various projects.

## Projects

**RecipeBook**

*Developed a full-stack web app (HTML, CSS, JS, Node.js, MongoDB).*

- Conceptualized and implemented an intuitive, user-centric platform, facilitating seamless recipe organization, storage, and sharing.
- Achieved a seamless user experience for recipe creation, storage, and sharing.

**Aroma**

*Developed a dynamic e-commerce platform specializing in perfumes, utilizing the MERN (MongoDB, Express.js, React.js, Node.js) stack.*

- Optimized browsing and purchasing processes.
- Enhanced user experience with streamlined navigation.

**Internship Portal API Clone**

*Developed a college project, an Internshala API clone, showcasing web development and API design skills.*

*Created a Restfull API replicating the original platform's key features, facilitating student-internship connections.*

- College project showcasing API design skills.
- Cloned Internshala's widely used platform for internship connections.

**ALBUMS**

*The Makeup Website is an online beauty destination, offering an extensive range of makeup products with an attractive and user-friendly interface, catering to cosmetics lovers and beauty enthusiasts.*

- Developed an online beauty destination with HTML, CSS, *JS, Node.js, MongoDB.*
- User-centric website showcasing a diverse range of makeup products.

## Certifications

- MERN  Stack Web Development
- Php And Mysql
